Dear Mr. Fidlitz:-

Do you happen to have in your collection the medal of Napoleon as first Consul, which has on the reverse the monument of Jeanne d'Arc? If so, would you kindly loan it to the Society for the proposed exhibition which is to be held in January, and if you happen to have any other Jeanne d'Arc medals, I would be very glad to borrow them for the occasion.

We have a collection of about two bundred and thirty specimens, and if there are any more accessible we are anxious to get bold of them for this exhibition.

Dear Sir: -

I take pleasure in informing you that the Governors have appointed you chairman of the Committee on Foreign Medals for the current year.

The other members of the Committee are Mr. Herbert Niklewioz, 28 Park Flace, Brooklyn, New York, and Mr. Daniel Parish, Jr., 13 West 48th Street. New York.

Trusting that this will be agreeable to you, I am,
Very truly yours,

Dear Mr. Fidlitz: -

The letter to Congressman Tuttle was received yesterday, and promptly signed and sent off. I have just received the return receipt for the papers sent to the Ways and Veans Committee. Shall I file it here with the copy of the draft and other papers, or send it down to you?

I enclose an acknowledgment for the little plaque that you gave me for the Society on Tuesday. I find in Forrer's book the name of Henri Nelli, a contemporary French medallist. I wonder if he can have been the one who made this plaque. I find no one else by that name in Forrer's dictionary. Vight it not be that M. Nelli engraved on the back would stand for Monsieur Nelli. We see these things turn up in rather a funny way now and then.

Dear Mr. Billitz:-

Your letter of November 8th has just been received, and I find . that the only edition that we have of the book you mentioned, "Italian Medals by Cornelius von Fabriczy" is in German, therefore, the translation by Mrs. G. W. Hamilton, that you so kindly offered to present to the Society, would be a most selecter addition to our library.

Thanking you very much, and with kind remarks to you an. Mrs. Eidlitz, I am,

Very sincerely yours,

Mr. Robert James Midlitz,

Chairman, Committee on Foreign Keduls,

30 Bust 4 and Street,

No. York.

Dear Mr. Eidlitz:-

The Annual Meeting of the Society will be held on Saturday afternoon, January 15th, 1918, at which time the reports of the verious Standing Committees will be in order.

The enclosed memorancem was possibly contain suggestions that will be of use in making up the annual report of your committee.

Very truly yours,

Mr. Robert James Bidlitz,
995 Marison Avenue,
New York.

My dear Mr. Dialitz:-

I would like very much to renew the rejuest that I made during my most delightful visit at your home on the evening of December 17th, that you would allow me to propose you for full membership in this Society at the next meeting of the Council.

We are allowed to elect three members each year until our membership roll gets down to the limit of one hundred and fifty, after that to elect when vacancies occur. We have so for elected no members during the current year, which ends on the 15th of January. We have two nominations to act upon at the next meeting of the Council, which will be held on Friday of next week, and I would be very glad if you would allow your name to be the third.

I am making this request because I think you would be valuable to the Society as a full member. A want active and enthusiastic collectors, such as would be valuable as members of the Council, to which associate members are not eligible. Should you decline to allow me to present your name, we would elect but two members this year, as there is no other except the two mentioned, hat been proposed, or, as far as I know, considered.

Trusting that I may receive a favorable reply, and wishing you and I'rs.

Filitz a very Happy New Year, I am,

Very sincerely yours,

Dear Sir -

Enclosed please find check in the sum of \$20.00. for the following:

New Theatre Medal - - - Mm 77 AR \$10.00 Lincoln Medal - - - - 1909 AR 10.00

I can send for these medals whenever you advise me that they are ready for delivery.

When I told you some weeks ago that I preferred to stay in the shadow I was speaking generally. I certainly had no idea, nor even an ambition to be thrust into the limelight of membership of the Council. I am sure that if you had consulted me I should have begged off, but since the Society has seen fit to elect me, I shall be glad to do what I can to further its interests.

I have your letter of January 18th, and the two modals will be ready for delivery at any time. If it is inconvenient for you to send for them, I can send them down to you.

As to what you say in your letter regarding membership in the Council. I can only say that if you would have begged off I am very glad that I did not consult you before hand, as I am very sure that we have secured a most valuable member of the Council.

I have just sent you notice of a Council meeting for Friday afternoon of next week. This meeting is rather important as the principal thing to be done will be the election of officers for the current year.

Dear Sir:-

There was brought to the attention of the Council of The American Mumismatic Society, at its last session, the present unfortunate situation of our fellow member and former assistant Mr. Nelson P. Pehrson.

In view of Mr. Pehrson's rest services, his faithfulness while an employee, and his constant loyalty to the Society in past time, it was the unsuimous sense of the meeting, and so resolved, that the members of the Council, as individuals, should contribute to arise the purchase of Mr. Pehrson's very interesting collection of coins for the Society's capinet.

The Pehrson collection was therefore brought to the Society's building for inspection and appraisal. Our curator Mr. Wood, together with Mr. Reilly, Mr. Rudolph Kohler and myself have since worked towards a valuation of the collection, fair both to Mr. Pehrson and to the Society. The average of our appraisals amount to five hundred and twenty five (525) dollars for the four thousand six hundred and thirty six (4,636) coins, medals and tokens comprising the collection. Of this number between two-thirds and three-fourths are not represented in the Society's collection, while of the remainder there are many which can be used to improve the specimens already in our cabinet. Particularly noteworthy are the issues of the Scandinavian countries in which our collection is very weak.

It is therefore of especial importance that we contribute towards this fund, not only to assist Mr. Pehrson in his present great misfortune, but also to enhance the Society's collection with a series of coins which has been brought together with unusual care and discrimination. I need scarcely add that not only Mr. Pehrson himself, but the Society as a whole, will greatly appreciate your generous contribution.

Yours very sincerely,

To the Committee on Foreign Medals.

Mr. Robert James Eidlitz, 30 East 42nd Street, New York.

Dear Sirt-

The Annual Meeting of The American Numismatic Society will be held Saturaty afternoon, January 20th, at which, according to our By-Lawe Chapter VI, Article 3, the Chairman of your Committee will be called upon to present a report in writing concerning the activities of your Committee. This Annual Meeting is the first one since the injugaration of the new regime. We therefore 1sh to make the meeting an eminently satisfactory one to our entire membership. Nothing our be accomplished without the world hearted co-operation of all.

The staff in the Society's building have devoted their energies and time to the furtherence of the Society's affairs and interests. The Society new looks forward to receiving a report of your Committee.

Seven months ago at the Spring general meeting of Committees, minute books and suggestions were furnished each Committee. If you have nothing definite to report, refer to your minute book and at least give us a digest of your minutes and discussions. Party on report had already been drawn up. In any case we would ask you to hand it in not later than the thirteenth of this month in order that he may be aid a in the arrangement of the programme of the Annual Meeting.

If you are the Chairman of your Committee, please turn your attention to this matter at once as it is imperative that a written report be presented at the coming meeting.

If you are not the Chairman, will you not get in touch

with him immediately as the time remaining is very short.

We wish to emphasize again that all the resources of the Society - everybody and everything in the building - are at your immediate disposal.

Can we help you?

Your Committee is composed of

Mr. Julius de Lagerberg, 70 Park Avenue, Passaic, N. J. Jelephone, Passaic 628 M.

Mr. Isaac W. Drummond, 436 West 22nd Street, New York. Telephone, Chelsea 677.

Hoping to see you, or at least hear from you, on or before the 13th, I remain.

Yours very sincerely.

President.

Robert James Midlitz, Peq., Ch. 1rman, Committee on Foreign Models, 30 East 42nd Street, New York City.

Dear Mr. Fidlitz:-

The work of the Committee on Foreign Medals, of which You were the Chairman for 1916, w. vary satisfactory in view of the fact that this past year as one of new conditions and problems. With the ground more or less completed, "e can now look for and to the more active and important work that lies whead of us, and which will call for energetic but hirly interesting and valuable activity on the part of the several committees. We feel certain that you are the most able person in your particular line. To assist you as much as possible it has seemed best this year not to appoint your fellov members at once, but ask you to name several members of this Society whom you feel reasonably assured will be of real assistance to you in the coming year. May I ask you to let me hear from you with respect to suggested names as soon as possible in order that we may eliminate any duplication that may arise among the several committees, and write to the appointers before the special meeting of the committees, which will in all probability be called for March 34th. 'Please make a note of this date as there should be as full a meeting as possible of all the members of all the committees.

Yours very truly,

March (57h, 1917.

New York City.

Dear Mr. Noe:

Thanks very much for the books which I shall look through with great interest and return to you promptly.

I am sending herewith Bulletin of [Municipal]. Art Society merely as a reminder, as this is one of the organizations which ought to be added to our list of prospectives.

I am also sending bulletin of the Metropolitan Museum of Art on page 72 of which is a report of the trustees for the year 1917, some of the material in which may be of use to you. I note among the executive committee of the Metropolitan Museum of Art the names of Daniel C. French, Edward D. Adams, William C. Osborn and Henry J. Frick, all of whom are members of our society.

I would expect that the membership list of the Metropolitan Museum would furnish valuable material. It might also be possible for you to find out that a though they adopted to get 2500 new members in 1917.

Dear Mr. Fidlitz:

onras I came upon a supply of the form this preceded a preceded a preceded and which I consider much more national convergence. You ill note to take chief chance has to do with the by-law which provides that elected associates need pay only half the marry does if their election takes place after July 1st. We it is not pertinent at the present time, or at least not until more as it nearer mid-mear. I can see so reason for not using the electroms until we can have new ones printed.

Our stenographer has seen any sith a cold for three days and I am doing a sen typing - the realt is seen all slow-up.

Yours very masportfully,

Mr. Robert James Hidlitz, 1 30 Rast 42nd Street, New York.

Dear Mr. Righitz:-

At the request of Mr. Memell I am writing to say that his organients will haraly permit of his being present at the meeting of the Council, which falls on April first (the first Monday). He has requested me to ask whether the second Monday would be convenient for you. He is planting to be out of town in rick the first week, and the appointment for the second Monday has the adventage of enabling Mr. Reilly to present the report of the Union Trust Company for the first quarter of the present year.

On receipt of your reply notices will be sent to

Dear Sir:

Replying to yours of the 18th instant have to say that the second Monday in April will be entirely satisficator, to be for a meeting of the lower at this office.

Yours truly Taket

Mr. Robert James Fidlitz, 30 East 42nd Street, New York.

Dear Mr. Bidlitz:-

I am enclosing some of the new application-formembership cards. I thought I had made my copy foolproof when I left it with the printer, but he has
taken serious liberties with the size and quality
of the envelope paper. The rard is been cut as a
further than I intended to have it although there is
still space for the man of the prope or at the intetion. I am having five hundred better quality envelopes
whited. In the meantime we shall use two hundred of
these for sending out to our members.

As I think I wrote you me have three names for presentation to the Council at their next meeting here already, one more has promised over the phone this morning, and another has been promised Mr. Newell. I believe Mr. Peutty too has still another. Let's hope the good work will continue.

Very respectfully,

Mr. Robert J. Bidlitz, 30 Bast 42nd Street, New York.

Dear Mr. Eidlitz:-

I beg to ackno leave receipt of your letter of the 21st enclosing carbon of a letter sent to Mr. Beatty and Mr. Drome. The cares have been sent them.

I have engaged a part time worker from the Columbia School for Secretaries, a Miss Rapalje. She will come for four hours daily, and can stay with us until August 1st, although if for a secret time she ould be slad to be released the middle of July or even sooner. She is so situated however, the should the work take on a wider scope, she will be able to come for the entire day. I feel this is as favorable a situation as we might expect.

I will have proofs of the stationery sent you by tonight if possible. As soon as Miss Rapalje comes I shall
begin soing over the list of names we have type riting
such information as we can obtain regarding members
checked as desirable, and begin to refer these lists,
under your direction and with your concurrence, to those
of our members whose connection is such that we might
expect them to have contact, that is, lists of architects
will go to yourself, Mr. Beatty and any other architects
on our membership list; lists of physicians will go to
Doctors T on sen, James and George E. Miller, &c, &c.
All action with respect to out of town members will take
second place for the present.

I enclose the list of our members classified accord-

ing to their occupations. Some of these, for you know them personally, may seem a bit stretched - Art Patrons is rather loosely construed for example, and I have included Mr. Weil in the Artists for that is where his contact lies.

Yours respectfully,

Mr. Potent James Malita, 30 Rast 42nd Street, Re York.

Dear Mr. Eidlits:-

Letering to our plane conversation of this marning I am analoging the list of our members to them the letter while the to serve on our letter in the Committee was sort. As you pointed out that I there whereally permitted to permit us to consider themeo as although arranged in cutting this list to m. Ar. Beatty m. r. From me words, I amount to the active rather than the conserving of the continuous to the active rather than the conserving of the will note the space at the top of this letter-news I think these names could write in a small type very satisfactority, and we should need only that marker.

The letter to members is being multigraphed, and will be sent out to bout one furired o our active workers in a day or so together with the new application for mobership s. . . With archive printing. Archive care at the lecture before the archive is a limitate, and we have one or too names here already. In consequence we fill probably laye a motion to probably laye a motion to probably laye a motion to probably layer and l

My dear Mr. Eiglitz:-

I am enclosing for your information a few notes en the subject of the Saltus No. 1, which comprise all three is in this office in our written reserve. I have just heard today that we are the Chair writing of the Publication of Madals Committee. Therefore Nr. Laterbury 1s a moser of our A and Committee for the Saltus heard. It. This may been retained as a mostive mader, so this cormittee nor stands: Hears. I have transcribed as a mostive members, and you are I as the active members to steer the affair to a proper result.

At your convenience I would like to have a scort session with you to see how far we can so toward making an award, or recommending the fund for some other purious.

The silver Huntington medal, established at the Society's meeting of April 5th, 1908, "to be given from time to time for literary or other services to the science of munismatics" preceeds the Saltus medal by five years, and covers about the same field.

It seems to be within our province to recomma, with Mr. Saltus' permission, either that his medal be awarded in certain fields not to be covered by the Funtington medal, or that his fund be used for some other purpose as publications. (Journal or otherwise), purch so of medals or decorations, numismatic war material, cash prizes to artists for designs or models, or for some other appropriation

needed to further our activities.

I know you have some with blo ideas on this subject, and we can probably recommend a solution of this situation which ill materially aid the Cociety's objects.

I will be in Philadelphia Thursday and Friday of this week and in New Mayen Tuesday. "Edne day and Thursday of next week. I will be glad to meet you at any other time that suits you cest.

Yours very truly.

Robert James Midlitz, Caq., 30 Rast 42nd Street, New York.

Dear Mr. Eidlits:-

Accompanying this is a letter received by Mr. Newell to an are Presty as here this afternoon and its contents have been communicated to him. To feel that it would be desirable for in. Well no Mr. Kohn to know of this decision as soon as the Committee is repared to make clear its position with reserve to the model in view of the changed conditions. Mr. Newell and I feel that permission to use the seal of the Society can now be denied if Mr. Frenner insists on having his full name appear on the place.

ill you kinaly see that this letter is ultimately returned to our files.

Yours very respectfully,

April 16th, 1918.

Mr. Robert James Eidlitz, 30 East 42nd Street, New York.

Dear Mr. Eidlitz:-

I am enclosing herewith samples of the two styles of duplication referred to in my talk with you plainly marked. The Underwood specimen (actually typed by machine) costs us 2.5 cents each. The Multigraph (a gellatin process) costs two dollars to two dollars and a half per thousand, with an additional cost for filling in the addresses of two dollars and a half per thousand.

Dear Mr. Eidlitz:-

Thank you very for the duplicates of the Numismatic Circular which I found here this morning. We are very glad to have them, and they sometime meet a very real need. Members will ask whether we have one or two numbers to fill in their set and their satisfaction at receiving these, either as a gift or at the rate they would have to pay the publisher for them, is quite out of proportion to any trouble we may have to take in caring for the file of duplicates.

Very respectfully yours.

Mr. Robert James Eiglitz, 30 East 42nd Street, New York.

Dear Mr. Eidlits;-

Had I not been reasonably certain that you would be out tais afternoon I should have first asked whether it would be convenient for you to look over the letters in the accompanying package to-night. I had to leave however before 4.30, and so have taken the liberty of sending them herewith. Miss Reilly, the takes the sub-sy at 42nd Street, will call for the package in the morning, and I can have them to begin work on if it is possible for you to go over the hundred and odd letters in the lot to-night. The reason for the urgency is that the letters have teen dated the 24th. If they get in to an early mail temorrow this will not matter. If this is not convenient, I will have our boy stop for them at whatever hour you phone me to do so. I am sorry I did not think to ask about this waen I taked with you this morning.

Very respectfully yours,

Mr. Robert James Eidlitz, 30 Fast 42nd Street, New York.

Dear Mr. Figlitz:-

You gaid you would like to see the latter to the bankers a sin before we put it in the hunds of the full ire not, so I we seed in it to you. If you may any suggestions I should like to have them to correctly phone. I will the save the seed of the latter rule for seed in out in the first lot and have the lotter also say 9th if you approve. This have a second lot of theme prepared galer date of the 15th, or well a greater interval than that to make the results be issimile?

About three hundred letters went out yesterday, und a little over a hundred are going forward no-day. To-morrow afternoon exact be a half holis y here.

Yours very respectfully.

Mr. Robert James Bidlitz, 30 Bast 42nd Street, New York.

Dear Mr. Eidlitz:-

I am sending herewith the letters about which we spoke over the phone. If you do not have a typewriter with elite type, and will furnish the names to whom you desire to send these, we can have these names typed in up here.

I shall send the bankers' letters to the Multigraph Company to-day for the first four hundred copies, half of which will be dated May 9th and the balance May 15th.

Very respectfully yours,

Mr. Robert James Fidlitz,

Dear Mr. Fidlitz:4

Here are the first two lots of the bankers-letter envelopes. The first half is to go out May 9th, the balance May 15th. Hr. Robert James Midlitz, 30 Rast 42nd Street, New York.

Dear Mr. Fidlitz:-

I am enclosing a statement concerning the membership letters. Regarding costs I can say only this at precent. We have had twenty-five hundred circulars printed. The price for the first thousand was to have seen "20.00. The satisficant fifteen hundred should be much less. Something in the neighborhood of "40.00 has been spent for photographs, outs, etc., partially including those for the second or meant folier. The bill for multigraphing to date is "16.29. I should recken the postage is about \$70.00. The stenographer's time, as I have explained to you, should hardly be charged against this campain as the rester part of it will be made up through our having a half-time Library Assistant whose t c months' summer vacation is to be at her own expense.

Yours very respectfully,

Mr. Robert James Eislitz, 30 Rast 42nd Street, New York.

Dear Mr. Eidlitz:-

I am sending a dummy of the assal folier. There are one or two points with regard to the illustrations that need clearing up. The first plate is C. K. Plate 2 requires a decision on medals No. 2 and 5. I suspect for No. 2 the Fourcade's "Mother" or Server's "Indian". For Ho. 5 I think we can not do better than "einman's portrait head, although if you decise for the Indian in space 2, you may prefer to substitute Tourcade's medal in a re 5.

Ve all feel up here that it would be a mistake to emit the plan. I would suggest drouging it to the better of the folder, and having an illustration such as "La Leçen d'Armes". I am sensing also Victor Peter's "Jout" and Morlan's "Printer". Please indicate your preference.

Yours very respectfully.

May 25th, 1918.

Mr. Robert James Eidlitz, 30 East 42nd Street, New York.

Dear Mr. Eidlitz:-

I am sending a dummy made from the new proofs save that the proof of the corrected plan has not been used.

The text of the first page is corrected on a separate sheet. It is necessary to cut it down at least two lines, but I think this will have been done by the corrections indicated. If you can improve it further, please do so. It seems to me that it is going to make a very satisfactory folder. I am enclosing an envelope for mailing it to the printer if you decide to go ahead with it without radical alteration.

Yours very respectfully.

Secretary.

Enclosures.

Robert James Eidlitz, Esq., 30 East 42nd Street, New York.

Dear Mr. Eiglitz:-

I am returning herewith your form letter together with a suggested substitute.

I think you have not realized in outlining this letter that we have a list of about four hundred names of people we believe to be interested in medals only. This list has been drawn from the Circle of the Friends of the Medallion and other lists, and I have transferred to it names of people known to be interested in things artistic. In consequence do you not feel that the approach in your opening paragraph misses fire?

The letter I am sending as a suggested substitute will hardly do for the remainder of the Eankers' lists. We shall have to draft a modification of it for them perhaps. I hope you will find some indications of progress in it however.

Yours very respectfully,

June 4th, 1918.

Mr. Robert James Fidlitz, 30 East 42nd Street, New York.

Dear Mr. Eidlitz:-

With the removal of the German and Austrian portrait medals ordered by the Council yesterday, the question of filling the cases has come up. Did you not show me several medals by David d'Angers when I was at your home? Dr. Thompson has six or eight important ones, and I have suggested to Mr. Wood that if you and he were willing to loan these medals to the Society for a time we could make up a very interesting case of the works of this man. I shall not take up the matter with Dr. Thompson until I receive an expression of your opinion, and a statement as to whether you would care to loan your medals.

Yours very respectfully,

- June 5th, 1918.

Robert Jens Fillitz, Rei., 30 Post And Street, New York.

Dear Mr. Finlitz:-

I am sending a new copy of the letter.

In objection is much my one of the Staff site sureed to the opening systemes. That history is rein, and all the sure originally come. The transfer is being male so paracetting. I have you will be able to get pround the difficulty?

My dear Mr. Eidlitz:

This war requires two vital things, if the world is to be saved; (1) Germany must be defeated; (2) the nations which conquer Germany must unite in some great world-policy to insure peace and righteousness hereafter.

Our human hope for these things is in the three great peoples, the Americans, the British, the French.

The first thing is to win the war; and toward this we can all do our part by giving whole-hearted support to our Government in its work of winning the war.

But when the Allies win, will they then fall apart for lack of ability to co-operate in a common policy? If so, the world will lose the fruits of victory. To prevent this, we must now, while the war goes on, strengthen the ties between America, Great Britain, and France. We must quickly learn to understand one another, and cultivate a mutual confidence and mutual respect.

The National Historical Society can here do a great work, by showing that there is a common historical basis, in ideals, blood, and institutions, which ought to draw America, Great Britain, and France very close together. Our France Number of The Journal of American History (price \$1.00) was to this end. The British Number (price \$1.00) is to the same end.

We must continue this special work, zealously and enthusiastically, as our service to the whole world in this crisis. The Society's ability to do this work through The Journal of American History will be greatly strengthened if a large number become Life Members, contributing \$100.00. Will you become a Life-Member of The National Historical Society? You will receive The Journal of American History free for life.

If you could read some of the expressions of French and British officials in appreciation of our British and France Numbers, you would realize what our work of encouragement means to our Allies' tried spirit. To serve them we need your help. Let us give them our joint effort.

Very truly yours,

Dudley Butter

Dear Mr. Newell: -

In the circulars which we are now sending out with a view to increase in our membership, we are holding out to our prospects the possibility of their being permitted to subscribe to medals which will be published in the near future. So far as I know, no definite move is being made to make good this promise and I feel that at the next meeting of the council, some action should be taken looking toward the selection of an appropriate subject and someone to execute the design.

Would you kindly give this matter consideration as it leaves those of us who are endeavoring to increase the membership in a somewhat awkward position unless something is done along the lines indicated above in the immediate future.

Dear Mr. Eidlitz:-

Referring to our talk last Sunday evening, I am translating a paragraph regarding Canova from the Nouvelle Fiographic Generale, vol. 8, pp. 506.

"Canova conceived the project of honoring Possagno, his hirth-place, with a temple of which he himself wished to be the architect; but inhhis architecture, as in his sculpture, le took the motives of two antique comments, the Parthenon of Athons and the Pantheon of Rose."

Further reference to any of is biographies should confirm this and establish him as coming within your category.

Perarding the cataloguer employed by Elder, Mr. Wood informs me that he knows him, but that this individual is so unkernet and sodirty and ragged that he hardly thinks you would be willing to have him come to your apartment. He is, as you supposed, of French extraction. He is honest and well educated, but has so degenerated that he is almost impossible. If you desire to look further into this as a possibility, please let me know.

Yours very respectfully,

Mr. Robert James Widlitz, 50 cat & bu Street, No. Zork,

Dear Mr. Tiulita:-

As you know you care elected a member of the Saltus Will Averd Committee at the meeting of the Council of January etc. The signal is to be awarded for signal achieve on in the field of the modal. The first assemble the modal is placed as periority of the man selected, and it is believed to the award call corry more weight with the awards if the jury were composed of the tanks poors. Prescription of Council that here first all modals issues by the Society we to be passed upon by two or more of our sculpton members involves this thought also.

It is importance that the Jury of Amera be composed of on of prominence of one standing is recommised. Your of mittee, he ever, is fined with the extestion of a jury from the magnification might be considered for the award is deferred. Under the directional standes may I be permitted to ask your consideration of the following for the reasons attached:-

- 1. Mr. Paul Bartlett, President of the Katigaal Sculpture Society, a sculptor of at main, and a men with the best of taste. Insumed as it is no played to have the madal awarded at the joint meeting of his Society with ours in March, this is an adattional reason for asking him to serve.
- 2. Mr. Herbert Adams, President of the Wational Adademy of Design, one of the few sculptors who have ever held this position.
- 3. Does it not seen that tim third we have of the complified should be the President of our own Scalety, who is enforced fitted for just the purpose of this complitee, and whose appointment rould balance that of the Presidents of the other Societies.

Should there be any difficulty in his performing specific auties as a conter of the constitues not to be taken one of through correspondence be might then date, ate his authority.

It is to be hoped that none of these men will decline. Mr. Partlett's residence is, I unless and, in Vashington and he and My. We all could neat there if necessary. It is he eyer to inche that at least one alternate be suggested, and I an venturing to and the name of Mr. Frederick Incidenties became the simple (?) medal with which he is accredited was, I understand, largely worked upon by its pupils. We could therefore williamly mive his rights for consideration for the award. Do you feel it assimble to ask that the Jury nominate a first and second choice? If this are done independently we should then have a link of the men considered by then the most contrable for the second every.

Dear Mr. Eidlits: -

Thank you for your very full letter about the medals you have purchased from us. I too have a distinct recollection of your ordering the Joan of Arc medul when you were here at the spring meeting of the Society on April 12th, and as you recall having given me cash for some metal here at the Society I believe it must have been for this one. My only reason for having hewitated in this connection before writing you was that both the card and my entry in the medal-book bear the notation "Send bill", and we had no record of a till having been sent you. by ten recollection of the April 12th meeting is that I declined one or two offers to pay for the Jean of Arc medal because copies would not be ready for delivery for more than a week, and I can not understand how I could have forgotten your having paid me and made the entry "Send bill" if I had accepted your payment. All of this occurred at just the time our stenographer was taken ill, and our records, until I took them into my own hands, are not as clear as they might be.

I regret exceedingly having had to trouble you with this. Your explanation must be the right one, however please pardon my having given you all this trouble.

Also in relation to the Charles LeBrun medal by Dubois, the International Exhibition of 1910 lists this medal \$2629 and the reverse 2630. This was what caused me to think that there might be two copies in the society. Is it possible that the \$2630 was only a plaster cast?

My dear Mr. Newell:

I am in receipt of yours of the 9th.

Of course I don't want to shirk and if it is absolutely necessary for me to remain chairman of the Membership Committee for another year, you may count on me, but I find that I have so many outside demands that I am trying to get what relief I can by giving up the unessentials.

Glad to hear that you had a satisfactory meeting.

Sincerely yours,

Dear Mr. Noe: -

I am returning herewith the copies of the Gazette Numismatique which you so kindly loaned me.

I got not only a small amount of new material from this, but also much in the way of reference, which was quite valuable. If you would let me know the cost of binding, I will be glad to send you a check before you leave so that the work might be doing during the summer.

If I should not see you before you go, I hope that you will have a very pleasant time abroad.

Dear Mr. Eiglitz:

The book-binder tells me that the binding of the Gazette 'unismatique Francaise in lime covers would be approximately at the rate of \$3.50 per volume as a minut approximately .4.15 for stiff covers. Inasmuch as one volume has already been bound in a stiff cover, as you not think that we had better bind the resainder in the less expensive way?

ould it not simplify the handling of the matter if I leave instructions to have the bill sent to you when it is completed?

I have yours of the 18th in relation to the binding.

If you already have some of them bound, of course it would be unwise to bind the balance in any other way. Undoubtedly, the limp covers that you have in mind, are not the ones that I had reference to. I am perfectly willing to have the binding conducted, and the bill sent to me, as suggested.

Dear Mr. Bidlitz:-

I am now making up the Committees for the year 1923, and could very much like to have you serve as Chairman of the Building Committee, which was appointed at the beginning of this year, and which I brought up awhile ago at one of the Council meetings.

Since this was dictated, I received yours of December 15th. I fully appreciate the value of your time, and for this reason feel that you would prefer not being appointed Chairman for the coming year on either the Committee on Foreign Headle or that on Membership.

The Building Committee is of peculiar importance to our Bociety, and as it fellows along in your line of interest, we are all hoping that you will accept the appointment. We would appreciate it very much if you would carefully consider this, at the same time suggest two fellow members of the Committee who could take the burden off your shoulders. We do, however, deeply feel that the quality of your leadership and advice could be furnished us by no other one of our members.

Sincerely hoping that we will hear favorably from you, I remain,

Dear Mr. Eidlitz:

A few minutes after you left the other day, I lecaled Numismatisca Medical aden, Volume XV, and I am sending it to you with this because I could not locate the reference for which you were looking.

Referring to your query regarding a medal aboring Perrault's facade of the Louvre, I can find no medific reference to trie. There is a possibility that his Membirs might give an indication. However, In tracing up the matter, I summarces a medal of Louis XIV which seemed to answer the description you gare me, save that the facade abown was the one designed by Bernioi, whose name, owever, does not appear on the medal. I am wondering whether this might have been the one you have in mind. It is solits and in friends des Ranismaticas, Flats XXV, No.1. The medal was designed by Warin. The obverse sears the inscription Lopovice XIV RIMANT ET APPIRICANTE. The reverse shows the facade, and bears the dute 1865. The reproduction measures 110mm. in diameter.

I hope that you will be able to come again in the near future and be able to stay a little longer next time.

Very truly yours,

Robert James Eidlitz, Esq. 41 East 42nd Street New York City

Dear Mr. Eidlits:

Armed with your letter of vesterduy, I had little difficulty in locating the Molart medal, although the only place I find it described is in the Catalogue of the dies in the Musée Monétaire. I have been unable to find a reproduction, but the description given is as follows:

407 ois. PROJET DE PERRAULT.

B. sia du roi. - Lég. Ludovicus Magnus rex
vallarum invictissimus. (Louis le Grand, roi
de France, l'invincible). (Molart f.)
nev. Vue de la facade du Louvre du coté de
Saint-Germain-l(Auxerrois, telle qu'elle a
été exécutée. Meme légende qu'au No.407;

l'éternité de l'empire francais).
Exer. M.DC.LXXIII. - Mod. 32 lig. (Molart f.)

You will note that the reverse inscription has the same as that of the Project of Bernini, with the exception of the date and the artist's name.

Dour Mr. Eidlits:

I have your two letters - the one about the Christman gift campaign, and the other about the vallt. The latter I shall refer to Mr. Huntington, as was proposed.

With recard to the other letter, Mr. Wood wonders not er we had be ter not embody the fact that the idea was sponsored by our President. I rather suspect that you deliberately evoided this, preferring to have "a number of our members" as apparently originating the idea. However, I am passing on the suggestion to you. How do you reel about it? Do you, or do you not, also feel that it would be undesirable to send this letter to our Honorary or Corresponding Members?

Dear Mr. Noe: -

I am returning herewith two letters sent to me but evidently intended for Mr. Huntington.

In regard to the Christmas letter - I had not brought our President into it as I assumed, of course, that it would be signed by him or by Mr. Reilly, or possibly by his name per Mr. Reilly. Further, in regard to sending the letter to honorary or corresponding members, I agree that this would be undesirable.

Enclosures:

Robert James Eidlitz, Rsq., 41 East 42nd Street, New York.

Dear Mr. Eidlits:

For what I hope will be the last time that I am returning the Christmas letter to you.

A suggestion which has come from Mr. Belden seems to me to have enough value to warrant this, although again I am not convinced that it will be desirable to embody this suggestion. Mr. Belden thinks that there may be among our members some who would have what would properly be classed as a "Museum piece", something very fine such as few private collectors possess, and that these owners might consider the case outlined in this letter as an opportunity for presenting such a piece, which they have been awaiting.

The only place for interpolating this which I can see is in the last sentence, which could be made to read, if you approve:

"Will you join this by sending some item of numismatic interest, whether merely a duplicate from your own collection or a 'museum piece'?"

As soon as I receive your reply, I will proceed to have the letter multigraphed and made ready for Mr. Reilly's signature.

Very truly yours,

Letter composed by Mr. Eidlitz and sent to Mr. Noe. Returned to Mr. Eidlitz with suggestions, November 23rd, 1923.)

Many appeals come to you at this time - few that

make so modest a demand.

At this season the members of a certain Italian Numismatic Society present to its museum a coin, a medal, a piece of paper money or a decoration. A number of cur members have expressed themselves as ready to extend the Christmas spirit to our own Society. Will you join them by sending us some item of numismatic interest, if only a duplicate from your own collection?

With the season's greetings

Enclosed I am returning your letter with my suggestions, which you have asked for. Don't use them unless you think they will help the cause.

I think that so far as the further lot of 50 members who might be interested in the work of the Foreign Medals Committee, is concerned, it would be well to wait until after the exhibition. You would then have this to show as a very definite result of the committee's activity and an appeal would undoubtedly meet with not only a readier but a larger response.

Mr. Langdon was here last evening, and among the repreductions sent him by Mr. Ottekar Spaniel, a Czecho-Slevakian artist, was one of Emil Kralik, an architect. I judge that this may be a cast medal - at any rate, he asks Twelve Dellars fer a specimen, 76 mm. in diameter. If you have not already received a copy of this medal and want to order one, it would exert some little pressure in favour of the Committee's work if it could be ordered through Mr. Langdon.

Dear Mr. Eidlitz:

Responding to yours of the fourth, these Walhalla Double Thalar pieces are apparently like our commemorative fifty cent issues.

Schwalbach's caption for the class is "Gedenkdoppelthaler" and the denomination is sufficiently large to make them medallic in nature. There is a rather extensive series of them having a common obverse, some fourteen in number. I overlooked a statement under the caption for these pieces which states that there is a rim inscription which varies slightly but whose purport is "Drey en halbergulden * VII E.F.M. *"

I should not be at all surprised if Proskey had one.

I do not find that we have a specimen. I hope this will give you the information you want.

Robert J. Eidlitz, Esq. 41 East 42 Street New York City

Dear Mr. Eidlitz:

Herewith is a desc intion of the medal from the Caruso Collection for which you asked:

"Pio IX Gio. Maria Mastai-Ferretti (184601878); PIUS.IX. CONT.MAX.
ANNO.XIV. Burto del Pontefice a d., sotto, P. GIROMETTI.P.R. CATAM UNBIS
IN JANICULI VERFICE RESTITUTOR NAVIT. Porta del Gianicolo. Sull'arco
61 legge ANNO.DOMINI.MECCLIV. CATIFICATUS.VII. All' esergo ANNO.
MDCCCLVI.V.VESPIGNANI.ARCHIT.

This copy is from the text, page 81. I note the following differences from the illustrations on plate 39:

I suspect that the letter following the signature of Girometti is not a "P" but an "F". On the reverse, the last two words of the upper inscription read "RESTITUIT CHNAVIT." It is not not be to check the inscription, ANNO DOMINI MECCELIV MITIFICATUS VIII which is described as appearing on the arch itself because of the smallness of the letters. I note on the obverse that there are periods after IX and MAX, these periods being at the midpoint of the height of the letters.

I hope this will give you the information you wish.

Very sincerely yours

Rebert J. Eidlitz, Esq. 31 Nov. April 5 Creet New York City

Dear Mr. Eidlits:

Acr your troublesome sentence, I would sucrest the following:

In the RF Collection, there is a day code for realized of him model, the edge of which bears the device of the French Mint and "Ar-Tont":

I think, almost without exception, these counterstamps are on the edge. Is not this correct?

For "duplicate", there is more of the objection-ablences which attacks to "comp". "Replica" is usually intended to imply that there were but one or two specimens additional to the one first given, but I think that it is also used interchargeably with "duplicate" - and, expecially so, in the case of medals. I can think of no other substitutes.

Very truly yours,

Robert J. Eidlits, Esq.
41 East 42nd Street
New York City

Donr Mr. Eidlitz:

With regard to your question concerning the Durer medals in the Society, we have the following:

- L Cast medal. Reverse inscription ZU SKIHEM GEDACHTHISS VI APRIL MDCCCXXVIII NURNBERG
- 2 Struck medal, signed TACHTHAN 1870
- 3 Lauer medal, bronze, 400th anniversary, 1871-Reverse shows avenue of trees with sun above. About 2½ inches.
- 4 Lauer medal, eilver struck, about half-dollar sizes with reverse ALBR. DURER HAUS.
- 5 Stettner medal, 1828. Silver, about half-dollar size.

I hope from the above data, you will be enabled to locate the medals.

Dear Mr. Eidlitz:

If you should be coming past here early some norming next week (not Theoday), would you hindly stop and look at the retaining wall for the terruce on the 155th Street side of our building? There looks to be a surface condition of the concrete which may need repairing to an extent which we are unable to determine; and before taking up the matter with Mr. Huntington, if that should prove necessary, we should like the benefit of your advice on the matter.

If, for any reason, I should not be here, the condition exists at the south-west corner of the building and terrace, and you can see it from the street. If I am here, of course I shall be very glad to be with you at the time you inspect it.

Dear Mr. Eidlitz:

At the last meeting of the Council, it was voted to proceed with having the interior walls of our Museum washed, according to the terms of an estimate made by a firm named Aplin Vacuum Cleming Co., 20 West 43rd St., City. Their agreement was as follows:-

"We have pleasure in confirming estimate given to you this afternoon by our Mr. Symes for Two hundred and thirty five dullar (235.00) for the following work in your establishment:-

To supply all necessary labor and equipment to wash painted walls, ceilings, and woodwork of entire lat & 2nd floors.

From our examination and trial of these walls we are convinced that they can be vashed serfectly at a resultle saving of \$250.00 over re-painting.

We carry Compensation & Liability Insurance with the Astn. Insurance Co. and your valued order will be appreciated."

May I ask if you have any way of checking ur to age if these fearle are responsible? Do you know of any other firm which you would consider more lesinable from bur roint of view?

Mr. Wood vishes to have a talk with you regarding the grill which is to be installed at the lead of the stirvay, and if you contemplate coming un here in the near future, this question of eleaning the walls might wait your coming.

Dear Mr. Eidlitz:

The citation in "to Vosberg" has, I think, been straightened out. Rudolphi states that this reference is to the treatise on coins of the city of Thorn. I have ordered the volume which occurs in the books from Dr. Bahrfeldt's library recently offered for sale by GustaveFock. I think however, that "e have the same item as it did appear in periodical form, but as I do not know the specific item for which younare looking, it was difficult for me to be sure. Perhaps when you are up here again you will let me show you the material which is in several bound volumes, and it may be then possible for you to discover the citation. Dear Sir: -

You will remember that we installed our Central Office Night Watch Tour and Fire alarm Service and anticipated that we would secure a contract to render service on the equipment installed.

We have talked to Mr. Noe, Secretary, on several occasions and our commercial representative reports that Mr. Noe does not wish to use the service.

If there is nothing further that we can do towards securing a service contract we would ask your approval of our removing our equipment from the building, allowing you salvage for the value of the equipment removed as we do not consider it good policy to leave the Night Watch and Fire Alarm boxes in a position where they might be used in an emergency and no signal be received at our Central Office. This would leave us open to unfavorable criticism.

We would appreciate receiving any suggestion that you may care to offer.

Enclosure:

Robert J. Eidlitz, Esq. 100 East 42nd Street New York City.

Dear Mr. Eidlitz:

Your letter of the 31st enclosing a copy of letter from the American District Telegraph Com any has been received.

It is my understanding that the american District Telegraph Company was fully said for all equipment installed by them when our new building was erected. An examination of their contract with you will disclose whether or not this is correct. You will recall that it was our intention to provide against the possibility that our present night watchman, in whom we have the greatest confidence, might be prevented from continuing in our service for any reason. A further reason dictating the installation of this service was that we might be saved the inconvenience difficulty and expense of installing it after the building was erected, whereas, by doing it thring the course of the erection all these elements would be minimized.

This Company's letter savors of the "go-getter" business methods, which have marked their relations with me. Every representative they have sent to talk to me with regard to it, and I should judge there have been at least half a dozen, have known little or nothing about the contract, therefore being interested only in signing us up for so withing we have repeatedly told them we to not yet want. Their insistence upon putting in the unsightly key boxes which are not used was add in the face of our objection that they could be installed later. Their excuse that the night watch and fire alarm boxes might be used in an emergency is a trumped up one, because they admit in the same sentence that no signal would be received at their central office - due, of course, to the fact that the wiring is not connected.

In other words, this letter seems to me an effort to bring pressure upon the Society through you to secure results which the American District Telegraph Company has failed to obtain directly. I should be glad to have a word to that effect, if your examination of our contract with these people shows that they are mistaken in thinking they own equipment in our building.

Very cordially yours,

P

RE: AMERICAN NUMBER MATTER COLLETY BUILDING. 156th Street & Broadway

American District Telegraph Company, 155-6th Avenue, New York City.

Gentlemen: - Attention Mr. McConnell

In answer to your communication of July 30th, 1931, relative to rendering watchman service at the above building in which you now have your equipment installed, we beg to advise you that the American Lumismatic Society does not feel that it could use this service at present.

The luestion of removing the equipment from the premises and allowing salvage for same would entail considerable masonry and plaster patching and painting, which cost of course, would be borne by your Company and if occasion arose for its use at some future date, it would have to be reinstalled.

At the time the contract for equipment was made, fir. McConnell was informed that service would not start for some time, but the equipment was installed in case the need for same arose.

In regard to the unfavorable criticism which you claim would be due to the boxes and fire alarms being used, and receiving no response, we answer this question by informing ou that there is no key at the building to uperate these boxes, also the fire alarm boxes are scaled with a cover inscribed - this box not in use - therefore, the question of use does not enter.

We feel the equipment should remain in the buildins as the Society paid for same, and if removed, would cause unnecessary criticism and inconvenience.

Yours very truly,

esponding to your letter of January 29th, our edition of bunch in a book which has to do with hysicians rather than scientists is deted 1862. It has a sixteen page sur least tabed 1863. We do not have the 1879 edition, nor to I find any listed in between the a two dates. If your coly does not have the surplement I should be very shad to send you ours.

I have spoken to ir. Wood about the medal of your father. We should be very glad to keep it here for you, if that will serve my useful purpose but ir. Wood thinks that there would be no other reason for our accepting your offer to send this to us. Awaiting your further favors, I am

Dear Mr. Eillitz:

Think you very much indeed for the consignment of catalogues which reached to the day before yesterlay. sus all there was at least one item which we did not have. Thank you very much indeed.

My conference with Tr. Fitzatrick en onday afternoon was very helpful indeed. He said that it wight take se eral days before he could report to you and I said him to say that should you lesire to talk to be further that I should be very also to meet your convenience. If your convenience would be better served, thereby, land if you will not think be entirely graceless in suggesting it), may I say that it would be possible for be to arrange to spend the night with you at Hastings, as I have considerable pleasure in emembering having one before. Ty thought is that it might be possible for you to ask anything that would give you closer comprehension of our situation here.

we receive from such members of your staff as "r. itzpatrick and Nr. Seeler. The countitee which set here on Tuesday aftermoon a veral times ex ressed their realization of how such it meant to our museum to have had the careful planning that werked the erection of the new building.

Dear Mr. Noe:-

In making a study of certain conditions in the boiler room at the above, I would be obliged if you could let me know the price, quality and amount of coal which you use per annum.

Robert J. Eidlitz, Esq. 100 East 42nd Street New York City.

Dear Mr. Eidlitz:

In the absence of Mr. Noe on his vacation I am answering your letter of July 15th concerning coal used by the Society. We have secured the following data from our receipts for coal bills:

1930 - 95 tons, of which 58 was egg and 34 was stove and 3 was pea, at a total cost of 1393.88

1931 - 50 tons of egg at a total cost of \$657.20

1932 - 60 tons of egg at a to al cost of 3742.06.

How much coal was left in the bin from one year to the other we do not know; thus an exact estimate of the amount used per year cannot be made. However, the superintendent informs in that we used about 60 tons during the past winter and that there is now in the bin about 45 tons. I have that this information will meet your need. More detailed information may be secured from it. Noe on his return in two weeks.

Gentlemen:-

Attention: Mr. Mosser

About 1916(?) Feuerdent published
his collection of French tokens. Later, in
about 1928, there was a sale of these. I have
the sales catalog and I am writing to ask whether
the Society has the publications which listed
the entire collection.

I have to acknowledge receipt of yours re coal consumption, etc. and will take this up with Mr. Noe on his return.

Very truly yours,

Robert J. Eidlitz, Esq. 190 East 42ne Street New York City.

Dear Mr. Eidlitz:

We have in the library Feuardent's sublication of his collection, but I find it to be incomplete. Our set contains but two volumes, 1904 and 1907 respectively, with a volume of 22 plates imprinted 1904. According to Boursey's first sale catalogue of the collection and several book catalogues I have consulted a third volume was issued in 1915 which we lack.

Very truly yours,

Dear Mr. Eidlitz:

May I refer you to your letter of January 9th, 1932 wherein you put into writing your offer made last year and repeated this year to subsidize the card file of Greek and Roman coins to the extent of not more than \$250.00. For your convenience I ap end a copy of your letter.

You will also recall that it was not necessary to claim your promise last year because the year closes without a deficit. As you know, he have no such prospect for the present year and I am wondering, with a view to clarifying our bank statement, whether it would be convenient for you to fulfill your promise before the end of this month, thereby simplifying the bank statement due at that time.

If it is possible for you to rescond to this suggestion may I say that the amount expended this year totalled 234.90. T. Newell has rowised to mke possible the continuance of the work during the coming winter. It is matter to your attention at the resent time, I beg to subscribe myself

Dear Mr. Eidlitz:

Is your interest in Thomas Jefferson confined to his relation to architecture? The enclosed sheet is from a prospectus of a quarterly journal published by Teshiva College. It is by Dr. Tavid Eugens Smith, which is my sole warrant for referring it to you. It seemed just possible that it might have enough interest for you to warrant your obtaining a copy of the magazine. If it doesn't, filing it in the westebasket is quite in order.

Robert J. Eidlitz, Esq. 100 East 42nd Street New York City.

Dear Mr. Eidlitz:

This morning I had a better chance to look over the three volumes in your Christmas gift. I am very glad indeed to have the Benaven work. Fublications such as these offer very valuable evidence when questions as to nomenclature are raised and as it was published in 1787 it just preceded the French revolution and therefore bears a record of conditions that were soon to change radically. Further reason for our welcoming the volumes lies in the circumstance that they come from the Appleton library. The volume by Cinagli is just about matched by the one we already have, which was given us by Daniel Parrish in 1987. Perhaps we may therefore some day find someone who would care to purchase the second copy in which event we shall feel free to avail ourselves of your permission to dispose of the one you have just given us.

May I add just a word of personal appreciation for the continuance of your interest in our library and for the loyalty which prompts your generous gifts.

Very truly yours,

Secretary
